

1ST ANNUAL CONGRESS

Milano, April 29th - 30th, 2019

SCIENTIFIC PROGRAM

www.sismeonline.org

DESCRIPTION

Multidisciplinary congress on esophageal diseases structured with live surgery and endoscopy and formal presentations. First day dedicated to benign disorders and the second to oncologic diseases.

EDUCATIONAL OBJECTIVES

Aim of this meeting is to provide an up to date on the most interesting issues and recent evolutions about benign and oncologic diseases of the esophagus. The multidisciplinary setting of the meeting should reflect our common daily clinical practice. The live endoscopic and surgical sessions and presentations are targeted to all those health figures involved in esophageal diseases management just in order to give a precise idea of what is done in theatres and wards and the real advantages and disadvantages of different treatments for the same disease.

TARGET AUDIENCE

The meeting is opened to all the SISME members and to all the physicians, nurses and other health-operators that are interested in the field of "esophagology" because of a daily or a sporadic involvement in esophageal diseases management.

ORGANISING COMMITTEE

Paolo Parise

INVITED FACULTY

Francesco Azzolini, Milano

Luigi Beretta, Milano

Luigi Bonavina, Milano

Andrea Cossu, Milano

Mario Costantini, Padova

Niccolò Daddi, Bologna

Paolo Dellabona, Milano

Francesco De Cobelli, Milano

Nicola De Bortoli, Pisa

Massimo Dorigo, Pisa

Lorella Fanti, Milano

Uberto Fumagalli, Milano

Simone Giacopuzzi, Verona

Roberto Innocente, Aviano

Sara Lonardi, Padova

Stefano Merigliano, Padova

Roberto Petri, Udine

Sandro Passaretti, Milano

Fabrizio Rebecchi, Torino

Michele Reni, Milano

Alessandro Repici, Milano

Riccardo Rosati, Milano

Thomas Rösch, Hamburg - Germany

Sandro Mattioli, Cotignola

Renato Salvador, Padova

Stefano Santi, Pisa

Edoardo Savarino, Padova

Prateek Sharma, Kansas City - USA

Biagio Solito, Pisa

Fabrizia Terraneo, Brescia

Pier Alberto Testoni, Milano

Giovanni Tonon, Milano

Stefano Turi, Milano

Vincenzo Villanacci, Brescia

Monday - April 29th, 2019

Welcoming address

P. Parise - SISME President

Session 1 | 9.00-13.00

Chairmen: F. Azzolini, M. Costantini

LIVE SURGERY AND ENDOSCOPY

- Laparoscopic Heller-Dor
U. Fumagalli
- P.O.E.M.
T. Rösch
- MUSE System Endoscopic fundoplication
P. A. Testoni
- Endoscopic stapled treatment of Zenker's Diverticulum
R. Rosati
- Flexible endoscopic treatment of Zenker's Diverticulum
A. Repici

Lunch

ISDE PRESIDENT LECTURE | 14.00-14.30

PRATEEK SHARMA

Session 2 | 14.30-16.30

Chairmen: N. Daddi, S. Merigliano

- Profiling of GERD and NERD patients
E. Savarino
- Is there still a room for surgery in GERD/NERD patients in the third millennium?
F. Rebecchi

- Cornerstones in surgical treatment of giant hiatal hernia
S. Santi
- Endoscopic antireflux procedures: when, which and why
P.A. Testoni
- Re-do surgery after failed antireflux procedures
S. Mattioli

Coffee break

Session 3 | 17.00-18.30

Chairmen: S. Passaretti, B. Solito

- The impact of the new Chicago Classification in the real life
R. Salvador
- P.O.E.M.: when, why and how
T. Rösch
- Zenker's Diverticulum in the third millennium: is still a surgical disease?
A. Repici
- Epiphrenic diverticula surgery: when and which surgery is the solution?
A. Cossu
- Barrett's esophagus: histologic problems and pitfalls
V. Villanacci

18.30-19.30

SISME General Assembly

Tuesday - April 30th, 2019

Session 4 | 9.00-13.00

Chairmen: M. Dorigo, R. Petri

LIVE SURGERY

- Totally mini-invasive esophagectomy
R. Rosati

Lunch

Session 5 | 14:00-16:00

Chairmen: M. Reni, F. Terraneo

- Which protocol of pre or perioperative treatment of GEJ cancer?
S. Lonardi
- Imaging in evolution of response to neo-adjuvant treatment
F. De Cobelli
- Is it possible to consider avoiding surgery after a clinical complete response?
R. Innocente
- The value of a perioperative protocol of prehabilitation and immunonutrition
S. Turi
- Which minimal invasive approach to Ivor-Lewis esophagectomy?
U. Fumagalli

Coffee break

Session 6 | 16.30-18.00

Chairmen: L. Bonavina, S. Mattioli

- Endoscopic treatments of anastomotic leaks
L. Fanti
- ERAS in Italy: where are we going?
L. Beretta
- The issue of the centralization of esophageal surgery - and what for the Southern Italy?
S. Giacomuzzi
- Immunologic features of esophageal cancer
P. Dellabona
- Genetic features of esophageal cancer
G. Tonon
